

MINUTES OF THE FINANCE COMMITTEE

BUDGET APPROPRIATIONS

May 19, 2025, 5:00 p.m.

745 Second Street, LA SALLE, ILLINOIS

Met in Council Chambers

ROLL CALL

Present: Aldermen Demes, Thompson, Reynolds, Jeppson, Herndon

Excused Absence: Chairman Ptak*, Aldermen Lavieri and Crane

Others Present: Mayor Jeff Grove (arrived 5:15 p.m. and left at approximately 6 p.m.) , Finance Director John Duncan, Economic Development Director Curt Bedei, Director of Public Works Kevin Fay (5 p.m. - 5:41 p.m.), Fire Chief Jerry Janick, Deputy City Clerk Brent Bader, City Engineer Brian Brown

*Chairman Ptak arrived at 6:14p.m. and stayed for the remainder of the meeting.

A quorum was present.

Moved by Alderman Herndon and seconded by Alderman Reynolds to appoint Alderman Jeppson Chairman Pro-tem of the meeting.

ROLL CALL

AYES: Aldermen Demes, Thompson, Reynolds, Jeppson, Herndon

NAYS: NONE **Absent:** NONE **Abstain:** NONE

MOTION CARRIED: 5-0-0

Preliminary Budget for Fiscal Year 2026

Finance Director John Duncan presented the first draft of the Appropriations Ordinance for Fiscal Year 2026. He explained this is an initial review of the ordinance. He emphasized that various sections are not complete since information from various sources including the TIF Funds and the EPA water and sewer loans has not yet been provided to him.

The following document is attached to these minutes and made a part hereof:

Fiscal Year 2026 Appropriations Draft Review (Exhibit A)

Duncan explained he would review the report in order except for **Street, Water, and Sewer Funds** since Public Works Director Kevin Fay is not able to stay for the entire meeting

Cash Allocation Report (page 1). Duncan began with the Cash Allocation Report, explaining the report was generated by the City's financial software and is a report distributed to the Council monthly with the Treasurer's Report and breaks down the cash balances by accounts and investments.

The bottom of the report indicates the breakdown of funds. Duncan pointed out that the **General Fund** (line 1) has a positive balance of \$924,938.30.

Duncan then reviewed all the funds with negative balances and explained each of them. The balance of -\$338,589 in **Playground and Recreation** (line 17) is due to the new pool liner. Returning to a positive balance will require time and possibly assistance from another fund.

The **Public Library** (line 21) shows a balance of -\$18,271.23 due to the bill paying process. The Library has a reserve of approximately \$5.5 million, manages its own money, and has its own board. However, the City handles the Library payroll and accounts payable each month then bills the Library and is repaid bringing the account to zero.

Fund 30 (line 30) is the La Salle Promotion and Advisory Committee (**LPAC**) fund which has a balance of -\$62,393.07; the City pays the expenses for LPAC and is regularly repaid by LPAC.

The **Rotary Park Fund** (line 36) has a balance of -\$465,489.91 for work done pursuant to a grant under the Open Space Lands Acquisition and Development (OSLAD) Program. OSLAD will cover its portion of the expenses; the remainder will be repaid from the TIF Fund with approval of the TIF administrator.

Duncan recommended Council members routinely refer to the **Cash Allocation Report** when reviewing the remainder of the **Appropriations Report** for perspective on the impact of each of the proposed appropriations.

Cash Allocation History (page 2). Duncan reviewed the **General Fund** (line 1). As recently as 4/30/2020, that fund held a balance of approximately -\$2 million; the 4/30/2025 balance of \$924,938.67 shows tremendous improvement due to increased revenue and decreased spending. Best practice would be to have six months of cash reserves in the **General Fund**, approximately \$5-6 million.

Duncan discussed the **Water** and **Sewer** (lines 51 and 52) funds stating that when the City raised rates it made it possible to accumulate funds for capital projects. The **Water** fund peaked in 2023 and **Sewer** peaked in 2021. Recent projects have drawn down those balances and Duncan recommends allowing the balances to accumulate again before starting any costly new capital projects.

The remainder of the **Cash Allocation History** (page 2) details the fluctuations in the various funds over the past ten years.

Street Department (page 12). Duncan reviewed potential differences in **Streets** from previous years. He indicated the accounts at the top of the report including health insurance and maintenance are fairly standard year to year, and he would highlight accounts with variances or that might be of particular interest to the Council including vehicle and equipment purchases.

Duncan first reviewed **Maintenance Service – Demolition** (G/L # ending in 5291) which is for the demolition of homes. \$25,000 remains in grant funds. Economic Development Director Curt Bedei indicated the City recently acquired 716 Bucklin Street and plans to target it for demolition.

On **Maintenance Supplies – Buildings** (6110) Duncan noted an increase from \$10,000 to \$20,000 for 2026 in anticipation of a new covering for the **salt shed** with an estimated cost of \$15,000. Duncan moved to **Vehicle Purchase** (8400) indicating that last year \$200,000 was budgeted with a plan to purchase used plow trucks; however, the City received feedback from others who have done that with disappointing results. No plow trucks were purchased this past year. For 2026, \$300,000, the cost of a new plow truck, is proposed. Duncan indicated the City's current fleet of plow trucks is aging and replacement is inevitable. He advises replacing them over time and not all at once.

Duncan pointed out **Sidewalk Repair** (5140) remains the same as 2025 at \$250,000. City Engineer Brian Brown stated the **Safe Routes to School** program (SRTS) grant is \$200,000. Chairman Pro-tem Jeppson asked if the school chose the sidewalks where the grant money would be spent. Brown responded that the school and Former Economic Development Director Katherine Koyak worked together to select the locations. Brown explained the grant was awarded in 2019, then COVID hit, there was a delay due to a misplaced environmental study. and as of December 2024 the program is back on track. Brown stated the City has spent no money on this to-date other than Brown's time spent working on it. He hopes to have plans in place by August and have the construction completed this fall.

La Salle resident Mr. Jamie Hicks asked if he could ask a question. Chairman Pro-tem Jeppson responded that questions would be taken at the end of the meeting.

Water Fund (pages 22-24). Duncan explained the code numbers on the report. 51 is the Water Fund and the lines with just four digits following the 51 are revenues. The lines below the revenue section with a longer string of numbers are expenses. Duncan commented that water and sewer rates have not been raised in some time and no rate increases are planned in the near future, so he anticipates 2026 revenue to be similar to recent years. The only

significant fluctuations are in commercial use, so Duncan uses a three-year average for his projection.

Grant EPA (51-3842) is blank at this point because data is not yet available. This is a loan forgiveness program. In 2025 \$540,000 was budgeted; the City received a little bit more than that. The City is working to find out what funds remain available from the grant. The final version of the 2026 budget will include a number for this line item.

Duncan moved down to the expense section of the report and discussed items that vary. In 2025 \$40,000 was budgeted for **Maintenance Service/Equipment** (5120); the 2026 figure is \$90,000 in order to purchase two new generators at the water towers.

Maintenance Supplies – Buildings (6110) increased from \$8,000 in 2025 to \$30,000 in 2026 to cover the cost of key fobs for all the public works buildings. Key fobs are currently used at City Hall and are a tremendous security enhancement. The police and fire departments use them. They eliminate the need to change keys and rekey doors every time an employee leaves the City and make it possible to track who has accessed various buildings.

Equipment Purchase (8330) which was \$120,000 for 2025 shows \$10,000 for 2026 to purchase **GIS equipment** for the water department. Fay explained that the GIS is a locator that can be put on a stake or tripod making it possible for City workers to obtain the information directly rather than paying someone else to do it. It will also assist in digitizing the information rather than relying on paper maps to track valves, hydrants, etc.

Vehicle Purchase (8400) shows \$80,000 for a truck's new service body to keep in line with the vehicle replacement program.

Duncan continued further down page 23 with accounts where the third set of digits is 29. They all relate to the **water treatment plant**.

Maintenance Service Water Tower (5121) indicates an appropriations amount of \$560,000. That amount is in line with the City's Water Tower Maintenance Agreement with U. S. Water to ensure water towers are properly coated and painted as well as other maintenance performed. Fay indicated once school is out, the water tower by Northwest School will receive an overcoat of paint.

On page 24, **Capital Improvement/Other** (8900) is budgeted at \$560,000. This relates to the **EPA Loan Forgiveness Program**. Brown indicated the total amount of work being done is \$9.4 million; Duncan stated the City anticipates approximately 50% forgiveness of that expense; Brown concurred. Included in \$560,000 is a **transfer switch** (\$50,000), **generator** (\$200,000), **Wellstand B** for the transfer switch (\$30,000), and SCADA upgrades (\$30,000). Payments are being made on the \$9.4 million and are being accounted for. Duncan

concluded the City is receiving significant infrastructure work for potentially 50% of the price. A council member asked if the **generator** was a one-time expense; Brown responded there would be routine maintenance on it. Such maintenance is mandated to protect the water system to ensure if the power goes out that there is power to treat the water and to pull the water to the treatment plant.

Duncan then moved to **Maintenance Service of Water Mains** (5119). The \$150,000 is for service agreements with two vendors, Aclara and Neptune. The City hired additional manpower to perform a citywide **water meter changeout** program converting from the Aclara meters to the Neptune meters. Until the conversion is completed, two vendors are being paid. Originally it was anticipated the project would take three years. Duncan stated the project is going extremely well and is receiving positive feedback from the public; the software is much easier to navigate to help detect leaks and manage reading and billing. Upon completion this line item will be reduced. Alderman Reynolds asked how close to completion the project is; Duncan estimates 60-70%. He said it is moving a little faster than originally anticipated, and it will be at least another year before it is done.

Duncan then discussed the **Water Fund** (pages 25-27). The third line down, **grant income**, is currently incomplete because the calculation of how much work has been done on the **EPA Loan Forgiveness** and how much revenue will be provided have not yet been provided.

Duncan stated the City anticipates rates remaining the same this year. The Water Rate ordinance states they could be raised in February. If the City were to decide to increase rates it could be effective whenever the City chooses; however, Duncan recommends making any increase in February in line with the ordinance. At this point, the City is able to manage under the current rates. Duncan anticipates revenue remaining at the same level in 2026.

Further down the page in the expenses, **Maintenance Service – Sewer** (5190), indicates \$1.5 million for the bulk of the projects in the sewer department including televising and cleaning (\$500,000), an aluminum lining (\$50,000), sewer lining (\$250,000), Route 6 bridge pipe collapse (rough approximation \$400,000), piping over the Route 39 bridge (rough estimate \$25,000), the longstanding **retaining wall** failure at the treatment plant (\$100-150,000), and a gate replacement of \$130,000.

Brown offered to provide explanations on any of the items. He indicated sewer cleaning had been done on the south half of Ward 2; he would like to finish Ward 2 and do all of Ward 3 and Ward 4 west of the Little Vermilion. Estimated expenses are based on footages, sizes, and use of the same contractor (that contract may be extended). That leaves Ward 1 and the east part of Ward 4 to review and finish in the next few years. Brown indicated a DCEO (Department of Commerce and Economic Opportunity) grant has been discussed with

North Central Illinois Council of Governments (NCICG) to pay for lining any sewer lines which are in distress. Brown is currently reviewing videos to identify lines in need of additional review.

Duncan continued onto page 26 to highlight **Vehicle Purchase** (8400) of \$80,000 and **Street Repair** (8600) of \$200,000, and asked Brown to discuss the \$3.3 million in **Capital Improvements** (8900) from 2025, asking if they are eligible for 50% EPA loan forgiveness. Brown indicated 30-40% was more likely since water is considered more critical than sewer.

Brown further clarified the **retaining wall** repair work will be ready to go out for bid once the structural engineer develops a wall design.

Moving back to **capital improvement projects**, Duncan advised the list includes **lagoon cleaning** and a **grit chamber skate disinfection building**. Brown recalled several years ago a company came and tested the lagoon with sonar to determine the sludge thickness to determine how many years are left before cleaning is necessary. The sludge has accumulated to the point of making cleaning necessary; the cost is included in the EPA loan request.

Brown continued, discussing the **chlorine contact building** which handles excess flow and requires a lot of hands on; the goal is to upgrade the system with more automation and safer chlorine use. He would like SCADA to run to it.

Brown explained one of the issues at the south plant since it is a combined system is having a water main leak or lots of sand and gravel on the roads ending up in the sewer system when there is a flush. Brown worked with Donahue & Associates to develop a large manhole with a basin that will collect the grit before it gets into the sewer system; a vacuum truck is then used to clear out the grit. That eliminates having to work with wheelbarrows inside the wastewater plant.

Duncan discussed the \$200,000 in **Street Repairs** (8600), with \$180,000 allocated to First Street. Brown explained the large sewer under the street will need either some replacement or lining done. Once cleaning is completed under First Street the extent of that work will be determined. In addition, the First Street roadway between Bucklin and Creve Coeur needs to be replaced. When the cleanup of the old gasification plant was done for Ameren, there was significant truck traffic along that route and a fund for roadway repairs was negotiated.

Under the **General Fund** there is a potential land purchase near the public works building creating an opportunity for additional parking and storage. Fay described the vacant building directly west of the City's public works garage. Purchasing it would expand the

City's public works campus creating additional storage for plows (inside during the summer as opposed to outside as is currently done). A council member asked about the price of the property, and Fay responded it most recently sold in 2019 for approximately \$130,000. Fay described it as a basic building with a bathroom and no remodeling needs. Purchasing it would also create additional outside storage. Access to it and public works is already shared. Jeppson asked if the property was currently connected to the public works building. Fay responded it is a large gravel lot which looks like one property but is split in half. Access is via Industrial Drive or 351. Brown indicated when the public works building was originally obtained an easement across the other property had to be confirmed or obtained, making the property familiar.

Duncan concluded the review of the **Sewer Fund** by pointing out that if revenues remain the same and the total budget for capital improvements and maintenance projects is as forecast in this draft, there will be approximately a \$1.5 million shortfall. The **Cash Allocation Report** (page 1, line 52) indicates Sewer has nearly \$1.3 million available, so the reserves in the Sewer fund can cover most of the anticipated projects but not all. The choices are to limit the projects in 2026 or take this fund slightly into the red. Duncan advised that whichever path is chosen it would be prudent to then allow the reserves in this fund to be rebuilt before planning the next significant sewer projects. In the meantime, the City is planning \$4 million in significant projects and receiving 30-40% loan forgiveness. Brown added that the projects have been contemplated by the City for a long time and are finally being accomplished. He doesn't anticipate any new major projects in the foreseeable future.

Director of Public Works Kevin Fay left the meeting.

Duncan reviewed **General Fund Revenue** (pages 3 and 4), calling attention to several unusual items. There was a change in the law regarding the collection **of personal property replacement tax (01-3440) and sales tax (01-3450)**. Originally, taxes from online orders were considered sales tax and were distributed by the state to the point of origin of the sale. Then the law changed, and the taxes were distributed as a replacement tax on a per population basis at the destination. This resulted in increased replacement taxes for the City in 2023 and 2024 (line 01-3440). J. C. Whitney and several other La Salle businesses have significant online ordering sales and for several years the City lost sales tax revenue it previously had from those sales. In the meantime, the City gained replacement tax revenue from local residents' online purchases (e.g., Amazon). In January 2025, the law changed to its original form so the City no longer receives replacement taxes from residents' online orders; however, it once again receives sales tax from online orders sold by La Salle businesses. Duncan estimates the net effect will be approximately \$100,000 in additional revenue to the City.

Interest Income (page 4, 01-3810). 2025 interest income of \$524,085.81 was higher than estimated (\$325,000) due to strong CD rates and prudent investing. The projection for 2026 is lower due to CD rates dropping. The City's CD investments are laddered, meaning one comes due approximately each month. Duncan prefers a conservative income estimate. CDs purchased by the City do not have terms longer than three years (36 months) to make certain funds are reasonably available and not locked up any more than one term of a mayor. The CD investment program has been successful for the City.

Duncan stated General Fund revenue for 2026 is anticipated to be approximately \$11 million.

Miscellaneous General Fund (page 5). This portion of the report is incomplete. Missing items include property tax rebates on homes that were annexed to the City to be part of a TIF pursuant to tax annexation agreements. These figures are expected from La Salle County soon and will be included in the final draft.

Duncan highlighted **Transfer to Park & Recreation** (line 9904). The \$125,000 transfer to Park & Recreation represents their portion of sales tax revenue. The transfer occurs annually since a referendum in 2005 or 2006.

General Fund Expenses. Mayor's Office (page 6). Duncan indicated the only significant increase is the **Regular Salaries** (4210) of the clerical staff to account for a new part-time employee. That employee's time is divided between the Mayor's office and the Community Development office. The employee handles license renewals, answers phones, and assists members of the public.

City Council (page 6). Nothing new.

Finance Office (page 7). Some increases in salaries, labor costs, and related benefits. No new purchases, etc.

City Clerk (page 8). The **publishing** amount (5530) shows a slight increase to cover all costs of required publishing.

Treasurer (page 8). No changes. Duncan explained **Dues** in every account are to the Illinois Municipal League (IML). The City purchases its property, liability, and workers' compensation through the IML RMA (Risk Management Association) and membership in the IML is required; each City department is assessed a portion of the dues.

City Attorney (page 8). The budget for the City Attorney is higher for 2026 in anticipation of increased usage and the use of a company called Lexipol for helping draft new policies for the Fire Department.

Economic Development (page 9). Duncan explained the \$43,000 in **Other Professional Services** (5490) includes \$26,000 for Global Sight Location Industries, \$2,000 for printing and marketing, and \$15,000 for a grocery study. Bedei is interested in the grocery study, pending approval from the City Council. Subscriptions/Memberships (5670) remain the same at \$28,000 and includes North Central Illinois Council of Governments (NCICG - \$3,000), Illinois Valley Area Chamber of Commerce (IVAC - \$3,000), North Central Illinois Economic Development Corporation (NCIEDC - \$13,000), and Heritage Corridor (\$9,000).

Bedei explained this is the second year with Global Sight Locations. Membership will include the manufacturing/industrial side as well as retail. Bedei is confident the membership will be beneficial. He further explained Heritage Corridor is the local Convention of Visitors Bureau (CVB) for tourism in the region. Heritage Corridor is the middleman between the City and the State of Illinois, offering advice on tourism, available grants, etc.

Community Development (page 9). Duncan indicated the increase in **Regular Salaries** (4210) is due to the hiring of the part-time employee shared with the Mayor's office.

Police Department (page 10). Duncan pointed out **Contribution to Police Pension** (4640) is at \$2.1 million. That amount was already approved in the tax levy and goes directly into the pension. Duncan indicated the City is on pace to meet the 90% funding requirement by 2040. The \$2.1 million contribution is a large part of the overall General Fund revenue of \$12 million.

\$20,000 is included in **Operating Expenses** (8523) for Flock cameras, iCrime software, and ID Network equipment.

Equipment Purchase (8300) was \$120,000 in 2025 and most items have been acquired; the \$50,000 for 2026 includes a radio receiver at LP High School (\$10,000) and leased Tasers (\$10,000).

Vehicle Purchase (8400). \$55,000 is budgeted for one new vehicle. The Drug Fund is also available in the event another vehicle is needed.

Regular Salaries (4210) has increased; it is the chief's salary category. Since Chief Smudzinski is retirement age, the budget prepares for that possibility. Per the contract, he is entitled to accumulated sick time; in addition, there would be the expense of carrying two chiefs during the training period. No retirement date has been set.

Fire Department (page 11). The Department is currently testing for positions and planning to add several people to replace a part-time person. There will be a new requirement of being a paramedic or fire medic. **Health insurance** (4510) of \$101,000 and **Fire Truck**

Chauffeur salaries (36-4210) of \$577,000 are the most significant changes in expenses in the department.

An **Assistance to Firefighters (AFG) grant** of \$135,000 is included in the calculations. If the City doesn't receive the grant, the related expenses won't be incurred.

Vehicle Purchase (8400) of \$134,000 is an annual payment for an engine that was ordered a year or two ago. Fire Chief Jerry Janick anticipates delivery of the new engine in the Summer of 2028.

Street Department (page 12) was previously covered.

Engineering (page 13). Nothing new to report. The health insurance calculation remains to be completed.

City Hall Building (page 13). Grant money previously paid for tuckpointing and roof replacement. \$300,000 is a rough estimate for 2026 to cover the cost of remodeling the bathrooms on the Police Department side of the building. The bathrooms routinely experience plumbing issues. Upgrading security in the lobby on the Police Department side is also being considered. Currently the lobby is locked if the records clerk is unavailable, making use of the blue phone necessary. 24-hour access to certain portions of the lobby is being considered with payment machines, etc. so, for example, residents may pay their water bills or have easy access to lobby postings.

Building Inspector (page 14). Building inspector is a part-time position and there are very few changes to the 2026 budget.

Superintendent of Public Works (page 14). This role is being filled by Fay who also works as a union water foreman. No major changes are anticipated to this role.

Miscellaneous (page 15). Duncan mentioned there are numerous account categories for community relations. This particular **Community Relations** account (48-9130) is the one used for **Redevelopment Incentive Program (RIP)** grants. \$150,000 is anticipated for the City to fund and \$60,000 remains available from County funds.

Directly below **Community Relations** is another **Community Relations** account (00-9130) created at the request of the Mayor for the purpose of offering grants to downtown businesses to provide additional payroll so businesses can stay open longer, open on Saturday, and attract additional customers to earn additional income.

Last year \$780,000 was budgeted in the **Community Development Assistance Program (CDAP) Demolition Grant** (85-9131); in 2026 those grants will be managed and paid directly by CDAP so nothing is budgeted by the City. The program is still available.

The **Comprehensive Plan** (86-91310) proposed budget is \$50,000 for updates to it.

Nine lines lower, **Community Relations** (00-9130) is the account for fireworks at events, flowers for downtown, donations to charity, advertising, radio promotions, etc. The handling of **charitable donation requests** this past year has sparked numerous conversations. Duncan increased this account in the draft by \$10,000 so the Council could see what it looked like with additional funds available there. Duncan recommends holding discussions over the next few meetings before the final ordinance is approved to decide how charitable donations will be handled. He mentioned Illinois Valley Animal Rescue (IVAR) is a charity; however, it provides a useful service to the City because it eliminates the need for calls to the Police Department to remove animals.

The **Land Purchase** (00-8512) relates to the potential purchase of the building next to the public works building. The amount of \$200,000 is a convenient round number to use for the estimate and any possible work the building would need. As indicated earlier in the meeting, Fay does not anticipate any work to the building would be necessary.

Duncan summarized the net effect of doing all the projects and covering all the anticipated expenses: it would result in a loss of \$739,883. There is \$924,938 in reserves in the General Fund which would cover it, leaving a positive balance of \$185,055 in the General Fund, well below the recommended cash reserves.

Duncan reminded the Council there have been discussions about curbs, streets, etc. and stated those may be a priority over the items proposed in the draft budget. He invited the Council to give him direction to make any adjustments as necessary. He stated the numbers in the draft were derived from discussions with department heads about anticipated needs and indicated adjustments could be made taking into consideration feedback from constituents.

Audit Fund (page 16). This fund pays for the annual audit. The books for the fiscal year are currently being closed and the audit will be complete in June. The numbers are returned to the City sometime in September.

Garage Fund (page 16). Duncan mentioned he continues to budget \$10,000 (**Recycling** - 23-5740) for an e-waste event. The City had one in 2024; there wasn't one in 2025.

Motor Fuel Tax Fund (MFT) (page 16). This Fund is not included on the **Cash Allocation Report**. It has its own checking account; funds from this account may not be comingled. The monthly treasurer's report shows the balance of the MFT account. **Streets** (00-8600) expenses of \$450,000 are planned for 2026. The City is participating in the 2025 MFT Program which accounts for \$400,000. Outstanding work on Eighth Street and Chartres

Street for \$50,000 is also planned. Brown added that the Illinois Department of Transportation (IDOT) will invoice the City based on the final cost.

Illinois Municipal Retirement Fund (IMRF) (page 16). As a result of the decrease in the replacement tax revenue, the IMRF is projected to lose \$61,000; however, the fund has \$198,415 in reserves. Duncan indicated he is comfortable spending this fund down a bit before allocating other general fund revenues to make up the difference.

Park & Recreation (page 17). The only significant difference is the proposed **Equipment Purchase** (8300) of \$19,000. Park and Recreation Director Linda Kasik is looking at a new Gator to replace the aging one currently in use. She will be at the next Finance Committee Meeting to discuss it further. The Gator is used regularly. Kasik has obtained bids on several different models.

Duncan pointed out that the Park & Rec budget balances in 2026; however, a long-term plan must be considered to manage the current deficit in the fund of \$338,589 which is due to the purchase of the pool liner.

Crossing Guard Fund (page 17). A slight loss is projected for 2026 due to the decreased replacement tax revenue. There is currently a \$60,937 surplus in the account.

Social Security (page 18). This account is also being affected by the decrease in replacement tax revenues as well as an increase in social security contributions due to increase in employment. Duncan stated the \$82,000 loss will not be sustained by the current fund balance (\$38,812). Duncan suggests next year that a greater percentage of the replacement tax revenue be allocated to this account to offset this fund and balance it.

Building & Grounds (page 18). This fund is used to supplement park operations. The Park Board has certain responsibilities and Buildings & Grounds (B&G) has certain responsibilities. B&G covers utility costs (e.g., lighting) in the parks as well as other City-owned buildings.

An alderman asked why the replacement tax revenue dropped; Duncan explained it is because of a change in how Illinois distributes sales tax on online orders.

Library Fund (page 19). The numbers on the report were provided by the Library Board. The Library Fund is projected to lose \$175,700 in 2026. A major donation source for the library has now expired; the library has in reserves approximately \$5.5 million. Steps are being taken to adjust the property tax levy to increase revenue to the library to keep the annual revenue and expenses in balance. A council member asked how the \$5.5 million is held; Jeppson who is a library board member responded the board is following the City's example and investing in CDs. Someone else asked about the significant increase in library

salaries. Jeppson explained most of the staff retired in the past 18 months and replacements had to be hired, along with additional staff.

Ambulance Fund (page 20). Maintaining contract employees has been a struggle. A significant number of transfer opportunities were lost and ambulance revenues suffered. What was thought to be a conservative estimate of \$950,000 in ambulance service revenue for 2025 (based on actual 2024 of \$987,498) turned out to be high; actual 2025 was \$852,564. Measures are being taken to correct this by hiring in-house paramedics and fire medics in the Fire Department to eliminate dependence on contract employees.

The \$60,000 **Equipment Purchase** (00-8300) includes a new cot for one of the ambulances (\$30,000); the \$300,000 **Vehicle Purchase** (00-8400) is for the purchase of a new ambulance. Duncan anticipates paying cash for the ambulance because there is \$844,385 in the Ambulance Fund. Paying interest on something the City can afford to pay cash for does not make sense; however, this issue can be reviewed depending on what interest rate is quoted on a loan as compared the interest being earned on the funds.

The **LPAC Fund** (page 20) was added in fiscal year 2025. LPAC has its own checking account; checks are signed by Duncan or the Mayor. As the account balance grew it was brought into the City's accounting system. The numbers in this fund are incomplete. Another unknown is whether the City will host Celebrate La Salle or roll out a new wintertime event instead. Those costs are being reviewed. A grant of nearly \$50,000 has been received for the event and numbers will be included in the final report. Entertainment at the winter event might include a synthetic ice-skating rink and bouncy items.

Rotary Park Fund (page 21). This was an **OSLAD Grant** (36-3464) which Duncan anticipates will be closed out bringing in \$300,000 in revenue. The City's portion of the grant is being paid for by TIF Funds. The City is responsible for its half plus any overages. There is a remaining amount of the OSLAD grant; consideration is being given to using it to build a tunnel at the Celebration of Lights. Approximately \$285,000 in expenses to close out the grant are included in **Rotary Park/Development/OSLAD Grant 1** (00-8198). \$250,000 in expenses to close out the grant are included along with the expense of a tunnel.

2010 GO Recovery Bond (page 21). The 2010 Government Obligation Recovery Bond is one of the last bonds the City is paying. Bonds must have their own funds; money is transferred in from the General Fund to make principal and interest payments. The City gets half of the interest back.

There are EPA loans on the books but no other bonds on the books.

Water Fund and **Waste Water Fund** (pages 22-27) were covered previously.

The **Parking Fund** (page 28) is consistent with last year. Revenue comes from **parking fines**. **Salary** for 2025 came in just below the \$9,000 budget. There is a potential **Capital Improvement** (8500) of \$20,250 to add cameras to parking lots for safety and security throughout the City.

TIF (pages 29-33). The TIF budgets are incomplete because the revenue data which goes from La Salle County to the TIF administrator to the City is not available yet. TIF expenses of note include:

TIF #1 (page 29), Capital Improvements (00-8900) of \$250,000 include \$25,000 for Oak Ridge Drive, \$100,000 for Cannon Parkway, and miscellaneous projects left from 2025. (Brown knows specifically what those amounts are.)

The \$400,000 **Transfer to Rotary Park** (9917) is to cover the OSLAD grant.

TIF #3 (page 30). Duncan anticipates the City will be reimbursed pursuant to an intergovernmental agreement (IGA) with the schools. No capital improvement projects are anticipated.

TIF #4 (page 31). The only anticipated activity in this account is reimbursement under the IGA and any developer reimbursements that are eligible. No capital improvement projects are anticipated.

TIF #5 (page 31) is the downtown TIF. Duncan anticipates \$880,000 in Capital Improvements (8900). \$60,000 for roadwork, \$75,000 in sidewalks, and \$100,000 in the Safe Routes overage (i.e., anything over the amount of the Safe Routes grant will be paid out of TIF #5). Brown interjected the route is Second Street between Hennepin and Union. Also included are Bucklin Street (\$25,000) and First Street reconstruction (\$620,000). Brown indicated he is pushing off the First Street reconstruction until the water main issues are resolved either this fall or next spring; roadwork on First Street will follow.

TIF #6 (page 32). Nothing anticipated except IGAs and refunds.

TIF #7 (page 32). Nothing anticipated except IGAs and refunds.

TIF #8 (page 33). Duncan has budgeted \$250,000 in **Capital Improvements** (8903) including paving the public works garage entrance (\$25,000), repairing Civic Road and Chartres Streets, and the potential purchase of the additional building for public works. (Duncan noted this amount was also included elsewhere in the budget; funds could be taken from this TIF.)

Duncan concluded his presentation of the first draft of the budget reiterating that by the time it is set for final vote it will be complete. The deadline for approving the appropriations

ordinance is the first meeting in July; however, he would like to have approval closer to the second meeting in June. He welcomed input from council members and their constituents.

A council member asked about the tunnel being considered at Rotary Park. Duncan indicated it would be a tunnel of lights. Brown indicated there would be no digging and the tunnel would remain in place year-round.

Chairman Pro-tem Jeppson thanked Finance Director Duncan for his presentation and opened the floor for public comment.

La Salle resident Jame Hicks recalled that last year sidewalk repairs on Second Street were discussed and funds allocated to them under the Safe Routes to School (SRTS) grant. He insisted the \$200,000 from the 2018 SRTS grant must already have been spent although the intended work has not been completed; he asked where those funds went.

City Engineer Brian Brown asked Mr. Hicks if he would like him to respond to the question.

Finance Director Duncan reminded everyone Mr. Hicks had a three-minute limit on his comments and should have the entire time to speak.

Mr. Hicks stated this was a public hearing, not a city meeting, and therefore the time limit was inappropriate. Duncan reiterated that there is a three-minute time limit.

Mr. Hicks questioned the handling of La Salle Promotion and Advisory Committee (LPAC) funds and stated everyone on the Council will be charged with felonies and jailed for mismanaging these funds. He insisted the numbers are not accurate and stated he would contact the FBI.

Finance Director Duncan advised Mr. Hicks that the three minutes allotted to him for public comment had expired.

Chairman Pro-tem Jeppson asked if anyone else would like time for public comment.

Mr. Hicks continued to speak from the back of the chamber stating no one should be timed for comments in a public hearing.

Deputy Clerk Bader advised Mr. Hicks this was not a public hearing; it was a finance committee meeting.

Mr. Hicks stated it was not at the regularly scheduled time for finance committee meetings.

Deputy Clerk Bader advised Mr. Hicks that due to the anticipated length of the meeting it was scheduled separately from the regular time to allow adequate time for review of the materials.

Mr. Hicks continued to interrupt, using obscenities.

Chairman Pro-tem Jeppson advised Mr. Hicks he needed to stop speaking.

Adjournment was called.

Moved by Alderman Reynolds and seconded by Alderman Demes to adjourn the meeting. Motion carried. Meeting adjourned at 6:40 p.m.

Mr. Hicks continued speaking from the back of the chamber as the meeting concluded.

Liz Bishop

Liz Bishop, City Clerk
