Mr. Terrance Boyer of Donohue & Associates explained that the Water Main Replacement Project is for the purpose of replacing three water mains on:

First Street between Creve Coeur and Gooding Streets

Seventh Street between Sterling and Todd Streets

Rockwell Road between the Illinois Cement Plant and 508<sup>th</sup> Road

All three water mains are undersized, and several are at the end of their useful lives. First and Seventh Streets will be upgraded to 8" pipe; Rockwell Road will be upgraded to 12" pipe.

Construction is estimated to begin December of 2026 and be completed by May of 2027 at a cost of \$3.515 million.

The EPA has prepared a Preliminary Environmental Impact Determination which is an assessment that must be presented at a public hearing.

The City is seeking funding through the Illinois EPA's Public Water Supply Control Loan Program (PWSLP). This program includes reduced interest rates and partial loan principal forgiveness over a term of 20-40 years. The repayment source will be system revenues which are projected to remain the same.

The project has been reviewed by the State Historic Preservation Office (SHPO) and no impacts of historical, architectural, and archeological resources are anticipated. The Illinois Department of Natural Resources (IDNR) Ecological Compliance Assessment Tool (EcoCAT) indicates the project would be in compliance with Illinois' Endangered Species, Natural Areas Preservation, and Wetlands Acts.

The document which Mr. Boyer presented is available to the public at City Hall. In addition, public comments may be made and additional information obtained by contacting:

Alderman Crane asked if this proposal was part of a long-term plan for replacing water mains in La Salle, and it was confirmed that this is part of the City's overall Facility Plan for infrastructure which includes water systems, wells, sewers, and water mains.

Mayor Grove asked the audience for comments and reiterated the project proposal would be available at City Hall for the public to review.

City Attorney James McPhedran asked about the terms of potential forgiveness on the loan. Mr. Boyer indicated potential forgiveness was up to 30% with the worst-case scenario being 1% in which case the loan could be extended.
